OPEN ON SUNDAYS.

Such Will Be the World's Columbian Exposition.

SO DECIDED BY THE DIRECTORS.

Their Contract With Congress Abrogated and the Appropriation of \$2,500,000 Will Be Returned to the Government. Other Doings at the White City.

CHICAGO, May 17.—The directors of the world's Columbian exposition have decided to abrogate their contract with congress by which they bound themselves to close the fair on Sunday in consideration of an appropriation of \$2,500,000. The money will be returned to the government, and hereafter the fair will be opened Sundays.

ON THE GUN DECK OF THE ILLINOIS.

This course was decided upon at a special meeting of the directors yesterday afternoon. Most of the directors were dissatisfied with the plan adopted at their last meeting, that of opening the grounds Sundays while closing all buildings containing exhibits. Yesterday's action was practically unanimous, but two directors out of 36 voting against the proposition. By the terms of the resolution adopted yesterday the machinery will be closed down on Sunday, but in every other respect the fair will be opened in all departments the same as on secular days. But \$1,929,120 of the appropriation originally made by congress has been turned over to the exposition company, and this amount is to be returned to the national treasury after the debts of the exposition have been paid.

A rule embodying these points will be submitted to the national commission for approval. What action the body will take is problematical, as a mere working quorum of the members is at present in the city. In any event it is the evident purpose of the local directors to open the fair Sundays, even at the expense of a rupture with the national body.

Laborers Discontented.

Discontent and uneasiness is apparent among some of the laborers on the grounds and janitors of the different buildings because their salaries are not forthcoming. The carpenters and staff workers erecting the band pavilions in administration plaza, who struck for backpay, are still out. The men have not been paid for three or four weeks and another month's pay will be due on the 26th. The contractors have been putting them off from day to day with the information that they will be paid when the exposition gives them the money due contractors, giving the men, however, anything from 25 cents to \$1 at different times for car fare.

The contractor, it is said, will not be paid anything until he has finished the job. Many of the contractors are behind in their payments and they tell the workmen they cannot get their money from the treasury. The red tape necessary in the proper auditing and forwarding of accounts through the departments is no doubt responsible for part of the delay. There are about 2,000 janitors and helpers on the grounds who have not received their pay for the last month and another pay day is due in 10 days. There is also great dissatisfaction among them and they have been put off from day to day and sometimes twice daily since the 23d of last month. They fail to see why "red tape" should interfere to this length with April salary when they have received their pay heretofore promptly on the specified days.

When the attention of A. F. Seiberger, treasurer of the exposition, was called to the complaint of the janitors and other workmen at the fair regarding the non-payment of overdue wages, he said: "I don't know why any of these men are complaining. They have no just cause for complaint. They are being paid just as fast as the payrolls can be made out. Of course, there has been some delay in the preparation of the payrolls. That can not be helped where there are thousands of men to pay every week. But as for the report that the exposition company is short of money and can not pay its employees and the contractors, there is no foundation for even suspicion in that direction. Ample provision has been made for just such a contingency. Of course our funds are not as large as they would have been if the fair had been favorable to large attendance, but we will meet all emergencies."

In spite of Treasurer Seiberger's assertion, that the exposition treasury officers were not playing a "standoff" policy, the fact is that every day long lines of shivering workmen are to be seen outside the office of Paymaster Meehan. When asked why they were there the men said they had been waiting for their pay for several days, and it was not the first time they had stood in line there only to be put off with the announcement to "come around tomorrow" at such a time.

On the windows of the paymaster's office were posted notices to the effect

that employees in certain departments "would be paid off today," and "the office rolls will not be paid for several days," by which is meant the various departmental clerks.

A national commissioner said in speaking on the subject: "I have no doubt that the exposition authorities are hard up for money. Everything has worked to the detriment of the fair for some time now, particularly the weather. I wouldn't be surprised if several of the Chicago capitalists would be asked to help out before this month is over. The running expenses of the fair are about \$45,000 daily. That means 90,000 paid admissions every day to pay the bare operating expenses to say nothing of what stockholders should have on their money invested in the enterprise. Since May 1 the average attendance has not been over 17,000, and as the turnstiles have not been in working order all the time it is a hard matter to tell just how many paid admissions there were."

The Ladies in Seven Sections.

There were lively times in the seven different simultaneous meetings, all subdivisions of the woman's congress in session in the great art palace on the lake front. The various halls and even the corridors of the big structure were crowded with the fair sex. Topics ranging from dress reform to evolution were under discussion, and each hall had its quota of devotees, particularly those devoted to the International Young Women's Christian association and the Order of the Eastern Star.

Can Not Agree.

The judiciary committee of the national commission has vetoed the resolution of the national body referred to it, providing for the establishment of a bureau of complaints. In a report to the commission the judiciary committee said the director general was the proper person to adjust all claims and hear complaints and that in their judgment the establishment of this bureau is unnecessary. The report was adopted.

BITTER LABOR STRUGGLE BEGUN.

Over Three Thousand Men Go on a Strike at Indianapolis.

INDIANAPOLIS, May 17.—The grievance committee of the teamsters' and shovellers' union issued a general call for all members of the union, numbering over 3,000, to demand eight hours as a day's work at 10 hours' pay or to strike. The first gang to be notified was the one at work about Monument place. This gang numbered 400, of which 50 refused to obey the order. The others attempted intimidation, but were prevented. No police were upon the scene although they had been notified.

The strike is the beginning of a struggle between the union and the contractors' association. The scale of wages is higher than that demanded by the union, but calls for 10 hours' work. The fight will be concentrated at Monument place, and the union claims that it will soon have 2,000 men to prevent the progress of the work. Several assaults have been made, but so far no one has been badly hurt.

ERASTUS WIMAN FAILS.

His Liabilities and Assets Are Not Definitely Known.

NEW YORK, May 17.—Erastus Wiman has made a general assignment to Lawyer David Bennett King, of 44 Pine street. Mr. Wiman would not make any formal statement. He merely said that the assignment was without preference.

Mr. Wiman has been in straightened financial circumstances for some time past. Several weeks ago Mr. Wiman made over a portion of his property, including his Staten Island real estate, to trustees for the benefit of creditors.

He hoped to be able to pull through his difficulties without the necessity of making a general assignment. The bad condition of the money market, however, has prevented him from doing this, and for some days his assignment has been expected.

COVERED WITH BLOOD AND MUD.

A West Virginian and an Ohioan Fight Three Rounds.

WHEELING, May 17.—Over 200 Wheeling sports crossed the river into Belmont county, O., to witness the fight between Mike Hawley of this city and James Gillespie of Ohio. Some difficulty was experienced in evading the Ohio authorities, but a secluded spot was finally selected near Laurelton, and a bloody fight took place in a driving cold rain and in almost ankle-deep mud.

The men fought with skin-tight gloves and at the end of the third round, when Hawley was knocked out by a vicious blow over the heart. Both men were covered with blood and mud. Wongo, the Indian pugilist, seconded Hawley and Gillespie was seconded by his brother Charles.

INTO A LANDSLIDE.

Passenger Train Wrecked and the Engineer Fatally Injured.

MEADVILLE, Pa., May 17.—Train No. 3, on the New York, Pennsylvania and Ohio railroad ran into a landslide near Venango, eight miles north of Meadville. Engineer Orrin Luke was fatally injured and the passengers badly shaken up but none seriously hurt. The engine, mail, express and two baggage cars were badly damaged.

The slide covered the tracks for a distance of 200 yards to the depth of 12 feet. The road will be blocked at least 24 hours. Numerous washouts and slides are reported on the main line of the road. French creek is out of its banks, and the tracks are covered with water in many places.

ESCAPED TO DEATH.

The Body of Murderer Pallister of Sing Sing Found.

SING SING, May 17.—A body was found in the Hudson river, off Sing Sing, and has been identified by State Detective Jackson and Principal Keeper Connaughton of the prison, as that of Pallister, the escaped murderer of Policeman Kane.

The body was very much decomposed. A bunch of keys found in the clothes was identified by Mr. Connaughton as the one taken from the guards by Pallister and Roehle at the time of their escape from the death house of the prison, nearly a month ago. The body was found in the river by two fishermen and brought to Sing Sing dock. The coroner has been notified, and will hold an inquest.

A thorough examination revealed a bullet hole under the left eye, and the supposition is that Roehle shot Pallister and then committed suicide. A fully loaded revolver was found in one of Pallister's pockets.

Pallister and Roehle were confined in murderers' row, in cells adjoining that of Carlyle Harris, electrocuted last Monday. Pallister saved from several days' meals the pepper brought to him with his food and one night dashed the whole of it in the cellkeeper's eyes, took from him his keys and revolver, locked the man in the cell and released Roehle. Then the two captured the next guard that came along and locked him up. They then released Carlyle Harris, but he declined to escape. Pallister and Roehle then made their way to the roof of the prison and got to the river in a terrible storm. Roehle's body, with a bullet hole in the head, was found last week by some fishermen.

Boy Fatally Hurt.

CRAWFORDSVILLE, Ind., May 17.—Carl Denbo, a 12-year-old boy, was fatally hurt here by falling from an electric car on which he was stealing a ride.

PRESBYTERIAN ASSEMBLY.

Arrangements Complete For Receiving the Distinguished Body.

WASHINGTON, May 17.—Already a large number of commissioners to the Presbyterian general assembly have arrived in this city, and up to the present time 485 commissioners have been assigned places for entertainment during the assembly.

Though the program for the music at the opening service has not yet been perfected, its rendering by a choir of 40 picked voices will be one of the most attractive features of the day. It has also been arranged that for the evening service during the 12 days of the meeting the music will be by the different Presbyterian choirs in the city.

Rev. Dr. Long of Danville, Ky., the retiring moderator, will preach the opening sermon on Thursday and the moderator to be chosen on the afternoon of the day will preach on the following Sunday.

An interesting incident of the first business session of the assembly will be the presentation to the new moderator of a gavel. This instrument is essential to the good government of the body, for, despite its membership, the commissioners often become as unruly as the house of representatives and a new gavel is an annual necessity. The gavel this year is the gift of W. B. Gurley and wife. Mr. Gurley is the son of Rev. Phineas D. Gurley, and early pastor of New York Avenue church, where the assembly will meet. He was Lincoln's pastor, and conducted the funeral services of the martyred president.

The gavel is of cherry from Mount Vernon. Inserted in one end of the head is a small piece of the frigate Constitution, which under command of Commodore Isaac Hull, defeated the British man-of-war Guerriere, off the coast of Massachusetts on Aug. 19, 1812.

A piece from it was made into a cane, which came into the possession of Mr. Gurley of this city, and a small piece was given by him for the gavel.

The small piece of white marble on the top is a chip from the capstone of the Washington monument. Under one of the shields is a small piece of the pew once occupied by President Lincoln in the New York Avenue church.

At the opening meeting of the Ladies' Missionary society in the Church of the Covenant, Friday, the church will be decorated with flowers sent from the White House conservatories by Mrs. Cleveland.

REGULARS ROUTED.

Trouble Between Indians and United States Soldiers.

TACOMA, Wash., May 17.—Uncle Sam's regulars were routed on the Puyallup Indian reservation by the aborigines. A detachment from Company F, Fourteenth infantry, under Captain Carpenter, marched around Bowen's Point, opposite this city and attempted to drive off the Indians who are grading for a railroad.

When the Indians were ordered to stop work a party of them climbed to the top of a 20-foot embankment and rolled down upon the advancing soldiers logs that had been cut for the railroad right of way. The soldiers scattered for safety and the Indians applauded with the Puyallup warwhoop. Captain Carpenter ordered a squad to go round the hill and seize the gang from the rear. Bert Mackley and Maulel Duott, who seemed to be the ringleaders, were arrested but subsequently released.

Captain Carpenter then got his men into line and marched into camp. More trouble is expected if the soldiers are not enjoined from remaining on the lands of the Indians. The graders continued at work after the troops left.

A FARMER'S DEADLY AIM.

He Shoots at a Wheat Thief After Dark and Kills Him.

SPRINGFIELD, O., May 17.—An engineer of the Big Four local freight dis covered a young man lying near the track at Snyder's station, five miles west of here, in a pool of blood dead. The man proved to be Clay Dorcas of Frederick county, Md., said to be the son of a wealthy farmer there. He was visiting his uncle, L. E. Dorcas, at Snyder's.

The tragedy was the result of the discovery of two thieves stealing wheat from the elevator the night before by Ezra Snyder, one of the wealthiest farmers in the county. Snyder ordered them to stop, thereupon they started to run. He instantly drew his revolver and fired three times, following the thieves a considerable distance. The second thief is unknown. Snyder did not know he had killed his man until nearly noon. He promptly gave himself up.

Used His Revolver.

ZANESVILLE, O., May 17.—James Sheppard, a young man 17 years of age, was shot and slightly wounded in the arm by an unknown colored man. The affair grew out of the employment of nonunion men at the rolling mill. A colored man, whose name could not be ascertained, who was returning to the mill after having been to the central part of town, was followed by a crowd of boys crying "black sheep" and "scab." As he turned the corner of a side street he saw Sheppard and Baker and, it is alleged, without any provocation shot at them. He escaped into a house, which was surrounded by a crowd, but when the police arrived and a search was made the man could not be found.

Footpads' Victim Growing Worse.

COLUMBUS, Ind., May 17.—Frank Adams, who was assaulted and knocked down by footpads while returning home from his club last Saturday night at Edinburg, is in a serious condition, he having sustained a fracture of the skull. He is the son of Dr. Adams.

CHINESE EXCLUSION.

The Law Can Not Be Enforced Just at Present.

NO MONEY TO PAY EXPENSES.

President Cleveland and His Cabinet Discuss the Question and Decide That Nothing Can Be Done Until Congress 'Convenes'—Rumors of Coming Trouble Between the Flowery Kingdom and the United States.

WASHINGTON, May 17.—At the cabinet meeting, with a full attendance, the Chinese question as complicated by the decision of the supreme court was discussed from every point of view and it is understood the conclusion reached was that the law could not be enforced for the reason that there was no money available for that purpose. The act only carries an appropriation of \$100,000.

Secretary Carlisle showed that not more than \$35,000 of that sum remained with some bills still unadvised to be acted upon. It is estimated it would cost to deport the Chinese now in the country, who have not complied with the law, more than \$6,000,000. This statement exhibited what one member of the cabinet called the utter inability of the government to give any effect to the law without further action by congress. Under the circumstances, it was understood that nothing could be done, and it is said there is little if any probability of the federal government making any immediate effort to put the law into effect.

One member of the cabinet who holds a high place and is looked upon as a man of force and strength of character, made the broad assertion after the session was over that the law was nothing short of a political scheme enacted for political effect, (he said, in fact, something about "demagoguery") and he intimated that there had been a general hope among his associates that the court would have held it to be unconstitutional.

It is assumed that in the ordinary course of diplomatic usage a copy of the decision of the supreme court, as soon as the majority members of the court have determined upon its exact phraseology, will be transmitted to the Chinese minister, to be by him forwarded to his government. This will necessarily involve considerable delay, and congress will probably be again in session before a return can be made to this communication.

Intimations of War.

NEW YORK, May 17.—A Washington special to The Post says: The outlook for a war with China is now regarded in naval circles as not unfavorable. It is believed that the emperor will resent the conclusion reached by the supreme court and will issue a decree enforcing strict rules against the entry of any more Americans into China, and probably ordering the removal of our missionaries out of his territory under pain of forcible deportation.

Meanwhile there is danger of insurrections of Chinese against the white immigrants, which the imperial authorities will be unable to check. These, taken together with the outbreaks which the attempt to enforce the Geary law on our west coast will bring about, it is thought, will put the two nations on such a footing as to make war inevitable. The decision is a great blow to the Chinese legation here, where it has been hoped down to the last moment that the act would be declared unconstitutional.

Prisoners Escape.

JEFFERSONVILLE, Ind., May 17.—Four of the most desperate criminals confined in the penitentiary escaped. They were Robert Adams, Nathan Bell, William Nelson and Frank McCarty. The men tunneled out into the yard, making a tunnel 10 feet long and two in diameter and two feet under ground. The men had evidently been at work on the tunnel many months, using knives to cut the drift and then carrying it out in their hands.

Bad Burglar Caught.

COVINGTON, Ind., May 17.—Frank Miller, an all-round thief and burglar, was arrested here for stealing shoes from the store of Charles Purfeest and jewelry from the residence of W. C. Crane. He is supposed to have set the opera house on fire for the purpose of looting the stores and residences. He has served a term in the Joliet penitentiary, and also a short one in the Indiana prison south.

United Brethren Conference.

DAYTON, O., May 17.—At the United Brethren general conference the contesting delegates from Arkansas valley conference, Kansas, Revs. G. S. Lake, D. D.; George Kettering and A. K. Root and Layman H. R. Johnston, were seated upon the unanimous recommendation of the credentials committee, thus unseating Revs. J. Morrison, S. W. Foulk and J. Carley and Layman J. D. Farnley.

Alleged Counterfeiters Discharged. INDIANAPOLIS, May 17.—Sam Thriver and his wife, who were arrested at Madison and brought here on the charge of counterfeiting, had a preliminary hearing before United States Commissioner Van Buren, and were discharged. Francis M. Marshall, United States marshal for the district of Missouri, was the principal government witness.

A Piece of a Meteor Found.

CHILLICOTHE, O., May 17.—A meteor crashed through the roof of a shed on Jacob Walz's farm. It has a bluish tint and looks like flint. Its surface is quite ragged, indicating that it is only a piece of a larger stone.

WEATHER INDICATIONS.

Fair, slightly warmer; northerly winds, becoming variable.

THE cold, rainy weather the past day or so is calculated to give the farmers, and most everybody else, a bad case of the "blues."

THE Mugwumps have joined the Republicans and Wall street in the fight against Secretary Carlisle. He will down the entire "gang."

THE postmaster-editor of the Public Ledger will presently be charging the Democratic administration with the big bank failures away off in Australia.

TWO INDIANA murderers were strung up by Judge Lynch this week. There would be no occasion for a resort to mob law if courts and juries would only do their duty promptly in such cases.

THE Ashland Signal is greatly perturbed over the salaries paid the clerks and janitors of the present Legislature. The Signal can't see anything good in Democracy, and this explains why it is so much wrought up over the matter referred to. If the editor of our contemporary will investigate a little he will probably find that many Republican Legislatures pay their clerks and janitors as much as such officials receive in Kentucky.

PERSONAL.

Miss Sudie Hierley has returned to St. Mary's School at Washington, after a visit to friends at Mayslick.

Mr. William Power, of Terra Haute, Ind., is visiting his brother, Mr. John W. Power, after an absence from Maysville of fourteen years.

Colonel Frank S. Owens and Messrs. John L. Whitaker, W. T. Browning and Geo. W. Dye are attending the K. T. Conclave at Mammoth Cave.

Miss May Hord, a charming society belle from Mason, who has been the popular guest of Miss Lula Thompson, left Tuesday morning for her home. Miss Hord will go to Missouri in about four weeks to visit relatives.—Bourbon News.

Another Indiana Lynching.

SEYMOUR, Ind., May 17.—Lou Trenck, who killed Henry Fiedler a week ago, was hanged at Brownstown at 2 o'clock Tuesday morning by a mob from this place. The lynching party was supposed to have been composed of the same men who hanged Turley at Bedford. Trenck was expecting violence. But little resistance was made at the jail. Entrance was effected by battering in the doors.

The Bank Met the Run.

MINNEAPOLIS, May 17.—About 8 o'clock in the morning a little crowd began gathering about the front of the Farmers' and Mechanics' bank. The line of people withdrawing their money continued all the morning, but grew perceptibly smaller toward evening. Confidence is clearly returning. Many deposits were also made.

Fireman Hurt.

COLUMBUS, O., May 17.—Two ladder wagons, going at full speed, collided here. Fireman Tom Leavy was caught in the wreck and fatally hurt, both legs being broken and his skull fractured. The fire was in Watkins, Hallock & Company's door, sash and lumber plant and the loss will reach \$3,000.

Drugstore and Grain Elevator Burned.

GREENSBURG, Ind., May 17.—Fire at Adams destroyed William McKee's drugstore and Marion Matthews' grain elevator, with 2,000 bushels of wheat and 500 bushels of corn. The fire was caused by the explosion of natural gas. The loss is \$5,000, partially covered by insurance.

A Historic Edifice Demolished.

The old castle of St. Cloud, where the wife of the Emperor Maximilian went and begged on her knees to Napoleon III not to leave her husband in Mexico to the mercy of his enemies, and where so many other historic events took place prior to its being accidentally destroyed by fire by the Germans during the war of 1870, has completely disappeared from the face of the earth. The ragged walls, the deserted terraces and the melancholy looking statues, which have remained up to now in the midst of the lovely sequestered gardens and wooded heights on the banks of the Seine, are being rapidly carted away.

Their place will be taken by ornamental beds of flowers, for the construction of which a sum of 45,000 francs has been voted by the town council. For the present the pond with the red carp, who snap so eagerly at the pieces of bread and cake thrown into them daily by pleasure seekers who stroll in the grounds, will be allowed to remain.—Paris Cor. He had been in Mexico for years and came up to show his face to his companions in misfortune.

The County Judge's salary for ensuing year was fixed at \$1,000.

The County Attorney's salary for ensuing year was fixed at \$500, and he was allowed \$100 for office rent.

The Legislature.

In the House Monday Mr. Dickson sent in a new bill amending the Private Corporations bill and referring to corporations organized for educational purposes.

Dr. Frazee introduced a bill making an appropriation to pay the expenses of Commissioners appointed by the Governor to visit the battlefields of Chickamauga and Missionary Ridge, to locate the position of the Kentucky troops on these fields.

The bill amending an act concerning the State Board of Health, providing for the prevention or spread of cholera, yellow fever or other contagious or infectious diseases, and increasing the powers of the State Board of Health in a great degree, was defeated. The old law and the appropriation of \$10,000 to be expended under certain restrictions for the prevention of cholera and other diseases still stands.

In the Senate Mr. Goebel sent in a new bill amending the Private Corporations act in its operation upon foreign corporations doing business in this State.

Judge Wall, for the Capital Removal committee, reported the proposition of the city of Lexington to give the site and a quarter million dollars cash to the secure capital. The other points visited by the committee have not yet settled upon the sort of proposition they will make, and until all have been heard from no order will be taken on the question.

Washington Fire Company's Benefit.

The initial entertainment for the benefit of Washington Fire Company was given at the opera house last night, and the performance was thoroughly enjoyed throughout. "A Woman's Devotion" was the play, and the rendition of the various characters would have reflected credit upon experienced actors and actresses. For an amateur performance it was first-class. Such is the verdict of those who saw it.

The skirt dance of little Ida Walz, aged only twelve years, surprised and delighted the audience.

The audience last night was not as large as it should have been, considering the object of the entertainment and the excellent performance. The house should be crowded to-night and to-morrow night. Reserved seat tickets at Nelson's.

An Old Swindle.

The feather-renovator swindlers have been getting in their work at Independence, Mo. Eight men were concerned in the robbery, and their victims at last discovered that the company have been returning foul and green chicken feathers and selling the good feathers originally sent them for renovation. The green feathers are worth from 4 cents to 10 cents and the others 40 to 60 cents per pound. Six of the eight men are under arrest. It was learned that 720 pounds of feathers were shipped to a St. Louis commission house by express, prepaid, one day by the company. The gang spent money lavishly. They had six horses and wagons and did a rushing business.

This recalls the swindle worked by a gang of feather renovators at Germantown a year or so ago.

WHILE serving as a member of the State Guard at Morehead during the "Rowan County war," eight years ago, Charles Glover, of Mt. Sterling, was wounded in the right knee by an accidental discharge of a revolver. The ball, a 38-calibre, lodged near the bone, where it remained until Monday when Dr. Jones removed it. Its eight years of rubbing against the bone had reduced the ball thirty-three grains in weight.

Another Tobacco Factory—About \$11,000 Subscribed—Last Night's Meeting.

The meeting at the Council Chamber last night in the interest of the tobacco factory project was presided over by Mr. D. Hechinger. Mr. John Duley acted as Secretary pro tem.

The list of subscriptions was read. The total amount now is about \$11,000.

Hechinger were appointed a committee to visit and investigate the factory which it is proposed to move to this city. They are asked to meet at Duley & Baldwin's office next Friday at 7:30 p. m.

If the enterprise referred to is not brought here, a factory will most likely be started with the money subscribed. That is the talk at present.

CAPTAIN D. B. GOODE and wife, of Danville, will drive all the way to the World's Fair in a buggy. He is one of the wealthiest citizens of Boyle County. He will go in a buggy simply to get a better view of the country.

THE Superior Court in affirming a case taken from Nicholas County says the decision of a County Superintendent of Common Schools refusing to allow a resident of one school district to send his children to school in another district is conclusive until reversed or set aside by the Board of Education, an appeal to that body being the only remedy allowed. Therefore the courts have no power to interfere.

His family may remain here for some time. NOT YET OVER.
Another Broken Levee Adds to the Louisiana Floods.

NEW ORLEANS, May 17.—Grand Lake levee has broken as the result of a heavy storm. It is situated in a thinly settled part of Arkansas just above the Louisiana line and lies between the river and an old slough. The extent of the break is not yet known. The water from it will reach Bayou Mason, into which the water from the previous crevasses are now flowing. Governor Foster and party will start down the river from Greenville and will probably visit the break.

The river between Arkansas City and New Orleans continues to rise, and the levees are being patrolled day and night. The Louisiana levee can stand a considerable rise yet, but every precaution is being taken against breaks. The crevasses in Arkansas will have the effect of extending the high water season, as the water from them must return to the Mississippi.

Five hundred thousand lizard skins were shipped from the state of Tabasco, Mexico, to the United States last year. Thousands of the skins are marketed in Mexico, while large quantities are exported to Europe. It is estimated that the number of lizards slaughtered for their skins in the state of Tabasco last year was 5,000,000.—Exchange.

A Murderous Suggestion.
May not the fact that nearly 1,000 more murders were committed last year than during the year preceding be in some way connected with the unwholesome publicity given to two or three tragedies that might be named?—Boston Commonwealth.

KNOWLEDGE
Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.
Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them, and it is perfectly free from every objectionable substance.
Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
